

Tarune Astrological Tarot Set

Astrology and Tarot are two ancient symbolic systems used to understand cycles, personality, and life's unfolding patterns.

When you blend them, you get Astrological Tarot — a method of reading that links each Tarot card to a zodiac sign, planet or element. This adds timing, depth, and cosmic context to your readings.

Astrology tells you WHEN and WHY

Tarot tells you WHAT and HOW

Together, they create a beautifully layered roadmap.

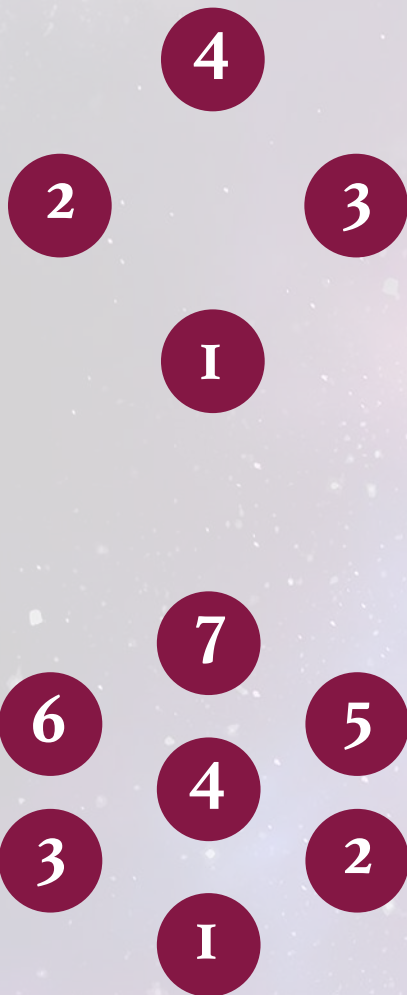

This booklet gives you the key correspondences and meanings to start reading with both systems at once.
